

Scottish CND Resolution for 2024 AGM

Resolution One

Resolution for this year's Scottish CND AGM taking place on Saturday 16th November

From CND North-East Scotland / Campaigning for Peace

We note the ever-growing potential for Nuclear War in the following Scenarios:

- The War between Russia and Ukraine/ NATO
- The expanding conflict in the Middle East
- The growing tensions in the Pacific between China and the US and Allies
- The Growing tensions between North Korea and South Korea/ US and allies

We ask that Scottish CND:

1. raise its concerns about the potential for Nuclear War with elected politicians, the media, religious leaders, trade unions etc
2. work with other concerned groups such as Stop the War to promote public awareness of the potential for Nuclear War
3. produce a leaflet laying out our concerns, identifying the driving forces behind the escalating danger of nuclear war, and what measures should be taken to remediate

Resolution Two

From Douglas Simpson

Push the economics of nuclear. In this age of cuts and austerity people need to know what else we could get for the money.
